

KEMPER ACADEMY

Thank you for considering Kemper Academy for your child's education. Our admission process aims to ensure that each student admitted to our school aligns with our values, goals, and educational standards. Below is an outline of our admission policy.

Application Submission:

Families interested in enrolling their child at Kemper Academy must submit a completed application through our online portal. Families must submit an application fee which covers administrative costs associated with processing the application as well as entrance testing.

Documentation Requirements:

Along with the application form, families are required to submit the following documents:

- Transcript: A copy of the student's academic transcript from their previous school.
- Behavior Report: A report detailing the student's behavior and disciplinary record from their previous school.
- Attendance Report: A report showing the student's attendance record from their previous school.
- Placement Testing:
 - Each student entering Grade 1 through Grade 12 must undergo a math and English placement test as part of the admission process. This test must be scheduled through our school office.
 - Each student entering PreK or K will take part in a readiness test administered by the school during the first few weeks of school.

Interview with the Head of School:

Following the completion of placement testing, families are required to schedule an interview with the Head of School. This interview serves as an opportunity for both the family and the school administration to discuss the student's educational goals, needs, and compatibility with Kemper Academy's educational environment.

Final Admission Determination:

- Final approval of admission will be contingent upon the following factors:
- Performance on the placement test.
- Review of submitted documentation, including academic transcript, behavior report, and attendance report.
- Outcome of the interview with the Head of School.

KEMPER ACADEMY

Notification of Admission Status:

Families will be notified of the admission decision once all requirements have been met and the admission committee has made a determination. This notification will include information on enrollment procedures and next steps.

At Kemper Academy, we strive to maintain a fair and transparent admission process that ensures the best possible fit for each student within our academic community. If you have any questions or require further clarification regarding our admission policy, please do not hesitate to contact our school office. We look forward to welcoming your family to Kemper Academy.
